## **DETAILED ACTION**

### ***Response to Arguments***

1. The applicant's argument that Monden et al. is failed to disclose the steps of making cut lines in the shape of a capacitor element with at least a part of a portion predetermined to be the anode part uncut, and a step of etching the cut edge surface generated in the previous step and the surface part of the anode. The examiner finds this argument persuasive. Therefore, the examiner made decision to allow this limitation over the prior art of record.

### ***Allowable Subject Matter***

2. Claims 1-28 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-28, the prior art alone or in combination does not teach the limitation of a method for producing a metal foil for capacitor comprising the steps of making a cut lines in a valve-acting metal foil in a shape of a capacitor element with at least a part of a portion predetermined to be anode-leading-out part left uncut, and a step of etching the cut edge surface generated in the previous step and the surface part of the anode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Citation Relevant of Prior Art**

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. Fujimoto et al. (US 6,462,936) disclose solid electrolytic capacitor.
- b. Sakai et al. (US 6,449,140) disclose solid electrolytic capacitor element and method for producing the same.
- c. Strange et al. (US 5,968,210) disclose electrolytic capacitor and method of manufacture.
- d. Amano et al. (US 5,586,001) disclose solid electrolyte capacitor using polyaniline doped with disulfonic acid.
- e. Sakata et al. (US 5,473,503) disclose solid electrolytic capacitor and method for manufacturing the same.

**Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nguyen T. Ha whose telephone number is 571-272-1974. The examiner can normally be reached on Monday-Friday from 8:30AM to 6:00PM.
